## Personal statement

---

I am a university student with a passion for making games. I would like to further my knowledge and face new challenges with a job in games development. I am currently completing my Honours year in Computer Games Technology at Abertay University. Through the course I have gained many key skills needed for the industry. I started a games company in 2016 with fellow students from a range of allied disciplines - Wrench Games. We have produced a number of prototypes and will shortly be launching a crowdfunding campaign.

## Key Skills

---

- C++
- Java
- Front-end WebDev
- Procedural Generation
- Unreal Engine 4
- DirectX (with shaders)
- OpenGL
- Communication and Team skills
- Console Development
- Git

Honours Project Topic: Procedural Destruction of a 3D Mesh.

## Employment History

---

Bar Staff, Dundee University Student Association, Dundee - (January 2015 – Present)

Responsibilities:

- Customer Interaction
- Serving
- Stocking
- Cleaning

## Education

---

Degree BSc. Computer Games Technology 2016 (Completing Honours 2017)
